PROJECTS

Voice for the Voiceless

[HTTPS://VTOTHE2NDPOWER.GITHUB.IO/VOICELESS/](https://vtothe2ndpower.github.io/voiceless/)

Dec 2020

Integrated the Web Speech API in this React.js application to render speech from text whenever an image and its associated statement is clicked on. Currently adding the backend to persist any other added statements

Rick and Morty Character Deck

[HTTPS://VTOTHE2NDPOWER.GITHUB.IO/RICK-AND-MORTY/](https://vtothe2ndpower.github.io/rick-and-morty/)

Nov 2020

Integrated the Rick and Morty API into this single page application built with React.js which displays all characters with their information and filters the output based on the search query typed within the search bar

Pokemon Dream Teams (Gens 1-3)

[HTTPS://VTOTHE2NDPOWER.GITHUB.IO/POKEMON-DREAM-TEAM/](https://vtothe2ndpower.github.io/pokemon-dream-team/)

Nov 2020

A simple application built with React.js highlighting my favorite Pokémon characters from my childhood. Includes fetching data from the PokeAPI and passing it as props to relevant child components
